

## CAPPA Seminar Series

CAPPA and Mount Royal University Continuing Education are pleased to present...

### Gas Allocations

Review the principles and calculations used in the gas allocation process (Volumetric Allocations). Our experienced instructor, Al McCue, will guide you through:

- Evolution of allocation methods
- Requirements for doing allocations, including:
  - Schematics
  - Gas and Liquid Hydrocarbon Analysis
  - Facility Balancing
- Technical Concepts:
  - Calculation of Gas Equivalents
  - Calculation of Recombined Analysis
  - Calculation of Stream Heating Values
- Discussion of Common Allocation Methods
  - Gathered
  - Gathered Heat
  - Component
  - Recovery Efficiency
- Current Industry Allocation Issues

This one-day seminar is ideal for production and joint venture accountants who are new to gas allocations, want to better understand the calculations in production accounting allocation processes, team leads or supervisors responsible for gas allocation results and auditors of gas allocation results.

Date: Wednesday, April 25, 2012

Time: 8:30 a.m. - 4:30 p.m.

\$449+GST/members CRN 31096

\$499+GST/non-members CRN 31097

Lunch and materials included.

Register today! Space is limited.
